Version 01-EN of the SDB Mamito fryer professional stainless steel care product is valid from 16 February 2026. This safety data sheet has been translated into English for better understanding. The authoritative versions are the German-language original of the safety data sheet and the statutory regulations in force in the country of manufacture (Federal Republic of Germany).

**1. Identification of the substance or mixture and company****1.1. Product identifier**Trading name: Mamito Frying Professional Stainless Steel Care Product**1.2. Use of the substance**

Frying Professional Stainless Steel Care Product

**1.3. Details of the supplier providing the safety data sheet**

See above.

**1.4. Emergency telephone number**

See above.

**2. Hazards identification****2.1. Classification of the substance**Classification according to Regulation (EC) No. 1272/2008 [CLP]: Not classified**2.2. Label elements**Labelling according to Regulation (EC) No. 1272/2008 [CLP]:

No labelling applicable

**2.3. Other hazards**

This substances/mixture does not meet the PBT criteria of REACH regulation, annex XIII.

This substances/mixture does not meet the vPvB criteria of REACH regulation, annex XIII.

**3. Composition/Information of Ingredients**

Vegetable Oils (100%)

#### 4. First Aid Measures

**First-aid measures general:**

If symptoms persist, call a physician. If medical advice is needed, have product container or label at hand.

First-aid measures after inhalation: Remove person to fresh air and keep comfortable for breathing. If symptoms persist, call a physician.

First-aid measures after eye contact: Rinse thoroughly and plentifully with water, also under the eyelids. Consult an ophthalmologist if irritation persists.

First-aid measures after skin contact: Wash skin with plenty of water. Get medical advice if skin irritation persists.

First-aid measures after ingestion: Rinse mouth. Do not give an unconscious person anything to drink. Do NOT induce vomiting. Get medical advice/ attention if you feel unwell.

#### 5. Firefighting Measures

**5.1. Extinguishing media**Suitable extinguishing media:

Water spray. Dry powder. Foam. Carbon dioxide. Use extinguishing media appropriate for surrounding fire.

Unsuitable extinguishing media:

Strong water jet.

**5.2. Special hazards arising from the substance**

Hazardous decomposition products in case of fire: Toxic fumes may be released. Carbon dioxide. Carbon monoxide.

**5.3. Advice for firefighters**Protection during firefighting:

Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.

**Other information**

Spilled material may present a slipping hazard. Cool closed containers exposed to fire with water spray. Do not allow run-off from fire fighting to enter drains or water course. Dispose of in accordance with relevant local regulations.

#### 6. Accidental Release Measures

**6.1. Personal precautions**

Spilled material may present a slipping hazard.

**6.2. Environmental precautions**

Prevent entry to sewer and public waters. Avoid sub-soil penetration.

**6.3. Methods and materials for containment and cleaning up**

Methods for cleaning up: Take up liquid spill into absorbent material, e.g.: sand, saw dust. Clean using water and a detergent.

Other information: Shovel into suitable and closed container for disposal. Disposal must be done according to official regulations.

**7. Handling and Storage****7.1. Precautions for safe handling**

Ensure good ventilation of the work station. Wear personal protective equipment. Avoid contact with eyes.

**7.2. Conditions for safe storage, including any compatibilities Storage conditions:**

Store in a well-ventilated place. Store tightly closed in a dry and cool place. Protect from light. Keep away from strong oxidizers.

**7.3. Specific end uses(s)**

No additional information available.

**8. Exposure controls / Personal Protection**

Exposure controls: Appropriate engineering controls. Ensure good ventilation of the work station.

Respiratory protection: No respiratory protection needed under normal use conditions. Accidental release measures. Breathing apparatus with filter. EN 143

Hand protection: Chemically resistant protective gloves. ISO 374-1.

Eye protection: Use splash goggles when eye contact due to splashing is possible. ISO 16321-1

Skin and body protection: Wear suitable protective clothing. EN ISO 13688.

**Environmental exposure controls**

Avoid release to the environment.

**Other information**

Wash hands before breaks and after work.

**9. Physical and Chemical Properties****9.1. Information on the basic physical and chemical properties**

Appearance: yellowish; colorless

Odour: odourless

Physical state: liquid

Freezing point: < - 5°C

Boiling point: no data available

Auto-ignition temperature: no data available

Decomposition temperature: no data available

Flash point: 250°C (closed cup)  
Solubility: water: Insoluble  
Explosive properties: product is not explosive  
Density 20°C: 0,93 - 0,96 g/ml

**9.2. Other information**

No additional information available

**10. Stability and Reactivity**

**10.1. Reactivity**

No additional information available.

**10.2. Chemical stability**

Stable under normal conditions.

**10.3. Possibility of hazardous reactions**

No dangerous reactions known under normal conditions of use.

**10.4. Conditions to avoid**

To avoid thermal decomposition, do not overheat. Protect from light.

**10.5. Incompatible materials**

Strong oxidizing agent.

**10.6. Hazardous decomposition products**

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

**11. Toxicological Information**

**11.1. Information on toxicological effects**

Acute toxicity: Not classified (Based on available data, the classification criteria are not met).

Skin corrosion/ irritation: not classified

Serious eye damage/ irritation: not classified

Respiratory or skin sensitisation: not classified

**12. Ecological Information**

**12.1. Toxicity**

Ecology- water:

Due to the consistency along with the low water solubility of the product a bioavailability is unlikely.

Acute aquatic toxicity: not classified

Chronic aquatic toxicity: not classified

**12.2. Persistence and degradability**

Readily biodegradable

**12.3. Bioaccumulative potential**

Potentially bioaccumulable

**12.4. Mobility in soil**

Ecology-soil: adsorbs into the soil

**12.5. Results of PBT and vPvB assessment**

This substance/mixture does not meet the PBT criteria of REACH regulation, annex XIII.  
This substance/mixture does not meet the vPvB criteria of REACH regulation, annex XIII.

**12.6. Other adverse effects**

No further information available.

**13. Disposal Considerations****13.1. Waste treatment methods**Waste treatment methods:

Disposal must be done according to official regulations. European waste catalogue. Do not dispose of with domestic waste. Do not discharge into drains or the environment.

Product/ Packaging disposal recommendations:

Do not re-use empty containers without proper cleaning or reconditioning.

**14. Transportation Information**

No hazardous good.

**15. Regulatory Information****15.1. Safety, health and environmental regulations/ legislation specific for the substance**EU regulations

**REACH Annex XVII (Restriction List)** Not listed in REACH Annex XVII (Restriction List).

**REACH Annex XIV (Authorisation List)** Not listed in REACH Annex XIV (Authorisation List).

**REACH Candidate List (SVHC)** Not listed on the REACH Candidate List.

**PIC Regulation (Prior Informed Consent)** Not listed in the PIC list (Regulation EU 649/2012).

**POP Regulation (Persistent Organic Pollutants)** Not listed in the POP list (Regulation EU 2019/1021).

**Ozone Regulation (1005/2009)** Not listed in the ozone-depleting substances list (Regulation (EU) 1005/2009).

**Regulation on Explosives Precursors (EU 2019/1148)** Contains no substances that are listed in the explosives precursors list (Regulation EU 2019/1148 on the marketing and use of explosives precursors).

**Drug Precursors Regulation (EC 273/2004)** Contains no substances that are listed in the drug precursors list (Regulation EG 273/2004 on the manufacture and placing on the market of certain substances used in the illicit manufacture of narcotic drugs and psychotropic substances).

**National regulations****Germany**

Reference to AwSV: water hazard class (WGK) awg, generally hazardous to water (classification according to AwSV regulation on systems for handling substances hazardous to water.

Storage class (LGK; TRGS 510): LGK 10 – flammable liquids.

Major Accidents Ordinance – 12th BImSchV: Not subject to the 12th BImSchV (Major Accidents Ordinance).

National regulations / recommendations: TRGS 510 – Storage of hazardous substances in mobile containers.

**15.2. Chemical safety assessment**

A chemical safety assessment was not carried out.

**16. Other information**

The information is based on the present state of our knowledge. However, it does not represent a guarantee of product properties and does not establish any contractual legal relationship.

The information is intended to give you guidance for the safe handling of the product named in this safety data sheet during storage, processing, transport and disposal. The details are not transferable to other products. Insofar as the product is blended, mixed or processed with other materials, or is subjected to further processing, the information in this safety data sheet cannot, unless expressly stated otherwise herein, be transferred to the new material thus manufactured.
